Company profile

Our company was founded in 2012 and has been steadily developing on both the Polish and international markets ever since. Based in Poland, we work with retail and wholesale customers, providing high-quality promotional products.

We specialize in the production of modern and functional promotional items such as deck chairs, bean bags, armchairs, and a wide range of advertising solutions.

Our products stand out for their excellent design, carefully selected materials, and full customization options. Each solution is created to match the individual needs and vision of our clients.

Quality and aesthetics are our key priorities. We create each product with durability, user comfort, and a unique appearance in mind, which attracts attention and supports strong brand recognition.

We look forward to working with you.

Production time & service

Urgent orders can be completed in as little as one business day. Standard lead times are typically 4–5 working days. We respond to all inquiries promptly to ensure smooth and efficient communication.

Product quality

By choosing our products, you can be confident you'll receive items of the highest quality, fully compliant with applicable standards and regulations.

Established since 2012

We have been operating since 2012, serving both individual and wholesale clients. We manufacture beechwood deck chairs, bean bags, and custom furniture. Our offer also includes display stands and promotional accessories.

Each deck chair is marked with a burned-in logo, highlighting the quality and recognizability of your brand.

Pre-purchase advice

Thanks to our experience in the advertising industry, we build long-term relationships with clients who value not only reliable production, but also professional advice and support in choosing the right promotional solutions.

Why choose our deck chairs?

The Chill deck chair combines comfort, durability, and timeless aesthetics. Made from premium solid beech wood and water-resistant PES fabric, it ensures comfortable use in all conditions.

Its foldable construction allows for quick setup and easy storage, taking up minimal space when folded.

The Chill deck chair is perfect for gardens, beached, terraces, balconies, as well as can serve as an attractive piece of equipment in restaurants, cafés, or pubs. It is also an ideal solution for festivals, concerts, and other outdoor events, where comfort and mobility are important.

Each deck chair is manufactured in Poland with great attention to detail and respect for the environment.

Promotional deck chairs

Our promotional deck chairs combine functionality, quality, and modern aesthetics. They are designed for companies aspiring to build a consistent and recognizable brand image.

We offer full customization of the seat fabric using two professional printing technologies:

- **Sublimation printing**, ensuring exceptional durability and vibrant colors across the entire fabric surface
- **DTF printing**, allowing precise reproduction of logos and detailed graphic elements

Additionally, deck chairs can be equipped with a branding plate mounted on the frame. Logos are applied using UV printing, ensuring a clean, precise, and long-lasting finish.

A deck chair branded with your logo serves both as a functional product and an effective promotional medium.

DTF printing technology

DTF (Direct To Film) printing enables high-quality prints with vivid colors and excellent durability. It allows graphics to be applied directly to the fabric while maintaining sharp details.

With double-sided printing, the deck chair looks consistent and aesthetically pleasing from every angle, avoiding the appearance of an unprinted reverse side.

DTF printing is not limited to white fabrics. The use of double-dyed material gives the product a refined and premium look.

Key advantages:

- **High print quality with sharp details**
- **Resistance to abrasion, UV exposure, and weather conditions**
- **Flexible customization options**
- **Suitable for promotional and standard deck chairs**
- **Short production times, including small quantities**

Sublimation printing technology

Sublimation printing is a modern process in which the graphic becomes a permanent part of the fabric. The material remains soft and flexible, without any rubbery texture or surface gloss.

During production, the dye penetrates deep into the polyester fibers under high temperature, resulting in a durable, saturated print. The final effect offers strong color intensity, sharp details, and a finish that is imperceptible to the touch.

Benefits of sublimation printing:

- **Deep and long-lasting colors**
- **Full-surface printing without design limitations**
- **Resistance to UV radiation, abrasion, and moisture**
- **Environmentally friendly production process**
- **High comfort and premium visual quality**
- **Freedom of design**

SUBLIMATION vs DTF

KEY DIFFERENCES

	SUBLIMATION	DTF
Full-surface printing	✓	
Limited print area		✓
Full Color	✓	✓
Small quantities 1-50 pcs		✓
Large quantities more than 51 pcs	✓	
Fast processing time of 2-5 days		✓
Longer processing time of 14-21 days	✓	
White back	✓

Front

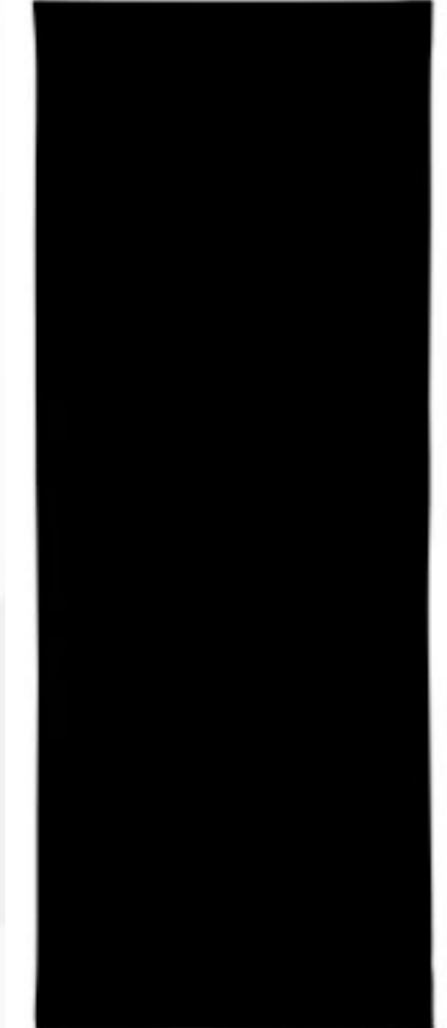

Back

DTF

Front

Back

Rear panel with print (optional)

The rear fabric panel sewn onto the back of the deck chair provides additional space for branding, such as logos, slogans, or promotional graphics.

Thanks to improved visibility from a distance, the deck chair gains extra promotional value while maintaining full functionality.

Made from durable, weather-resistant fabric, the panel can be fully customized to align with your brand identity.

What sets us apart ?

Eco-friendly materials

To take care of the environment, our deck chairs are not painted or varnished. Every wooden part has been carefully sanded and milled.

High-quality fabric

Durable, abrasion resistant, and easy to clean PES fabric with a weight of 195g/m². It provides comfort of use and durability even with intensive use.

Safety

The frame has three reclining positions. The set includes two bars to prevent the deck chair from folding.

Comfort

The folding design allows to easily fold the deckchair. To wash the fabric, you can quickly remove the seat. Another advantage of our deckchairs is that they fold completely flat.

Available frame options

Classic Frame

Dimensions: 120 × 60 × 3.7 cm
Screw-assembled frame (replaceable components).
Fabric replacement requires unscrewing the frame.

Modern Frame

Dimensions: 120 × 60 × 3.2 cm
Dowel-jointed and glued frame (non-replaceable components).
Fabric replacement via the slat system — no frame disassembly required.

Comfort Frame

Dimensions: 128 × 62 × 3.2 cm
Dowel-jointed and glued frame (non-replaceable components).
Fabric replacement via the slat system — no frame disassembly required.

Kids Frame

Dimensions: 90 × 50 × 3.7 cm
Screw-assembled frame (replaceable components).
Fabric replacement requires unscrewing the frame.

Chill promotional sets

Discover our latest line of customized promotional furniture designed to stand out at any event. Our sets, consisting of a stylish table and comfortable seats in various shapes – from triangular to cylindrical and rectangular – combine lightness and durability thanks to a unique construction of styrofoam and foam.

Covered with waterproof polyester with sublimation printing, they can be fully customized to reflect the image of your brand. This is an ideal solution not only for events and parties but also for restaurants, pubs, hotels, and apartments.

Depending on the configuration, our sets can accommodate 6 to 8 people, creating a space for meetings, relaxation, and atmosphere building. They will add character to any place and provide unforgettable experiences.

High-quality fabric

Durable, abrasion-resistant, and easy to clean, our PES fabric ensures comfort and long-lasting performance — even with intensive use and changing weather conditions.

Heavy-duty 340 g/m² fabric

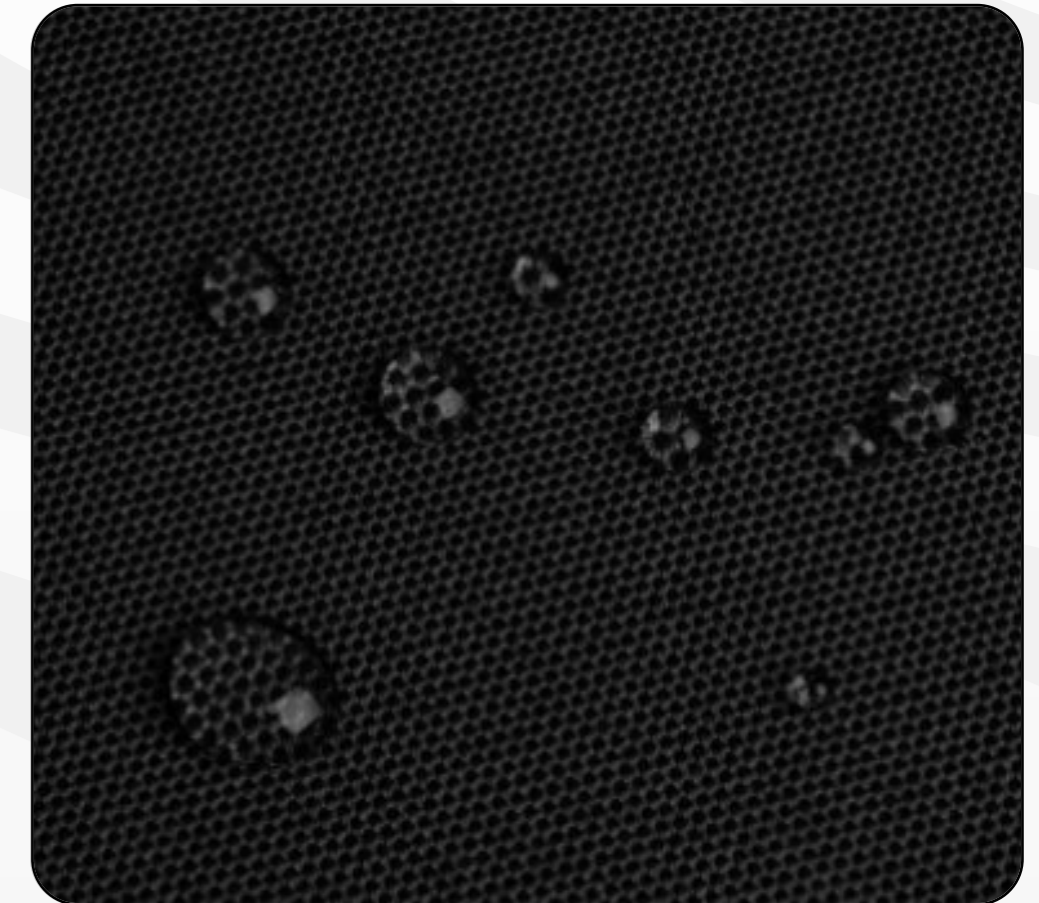

Durable sublimation print, UV-resistant

Full customization (logo or full-surface print)

Removable cover

Waterproof polyester

Customization without limits

Thanks to sublimation technology, you can fully personalize the design. Your set can feature a logo, graphics, product information, or company details — creativity has no limits, allowing you to create a truly unique branded setup. The lightweight polystyrene core makes transport and storage easy.

Key features:

- **Unlimited customization (logo or full-surface print)**
- **Removable cover**
- **Cover made of waterproof PES polyester fabric, 340 g/m²**
- **Filling: polystyrene core + foam**
- **Durable sublimation print, UV-resistant**

SQUARE

Includes 8 CUBE poufs, each 39 × 39 × 39 cm,
plus a table: 113.5 × 113.5 × 50 cm.

RING

Includes 4 poufs: 135 × 37 × 35 cm,
plus a table: 114 × 50 cm.

TRIANGLE

Includes 3 BENCH seats: 114 × 39 × 35 cm,
plus a table: 107 x 107 x 107 x 49 cm

ADVERTISING BARRIERS

Advertising barriers

Advertising barriers are practical, high-visibility branding tools — ideal for sports events, concerts, trade fairs, and outdoor activations. They combine strong promotional impact with a clean, professional way of defining and organizing event space.

With full customization available, each barrier can be printed with your logo, campaign artwork, or slogan. High-quality printing ensures long-lasting color intensity, while the materials used provide reliable performance even with frequent use and changing weather conditions.

KEY FEATURES

- **Fully customizable: logo, graphics, or promotional slogan**
- **Event-ready construction: lightweight, stable, and easy to set up**
- **Weather-resistant cover: waterproof polyester, 190 g/m²**
- **Sublimation print: vivid colors with a durable, UV-resistant finish**
- **Multiple sizes available to match different event layouts**
- **Reusable and mobile solution**
- **Filling: high-quality polyurethane foam**

Available models

LONG

Dimensions: 220 × 38 × 50 cm (H) (+/- 2 cm)
Weight: 7.5 kg

MEDIUM

Dimensions: 110 × 38 × 40 cm (H) (+/- 2 cm)
Weight: 3.5 kg

COMPACT

Dimensions: 110 × 38 × 30 cm (H) (+/- 2 cm)
Weight: 2.7 kg

MIDI MAX

Dimensions: 110 × 38 × 50 cm (H) (+/- 2 cm)
Weight: 4.5 kg

EXTENDED

Dimensions: 110 × 38 × 80 cm (H) (+/- 2 cm)
Weight: 6.7 kg

Wooden crates

Our wooden crates combine natural aesthetics with durability and practical everyday use. They work perfectly as side tables or comfortable poufs, adding character to interiors while remaining a functional part of the space.

Each crate can be customized — we can apply your logo or graphics to the sides and/or the top surface, creating a distinctive branded element tailored to your venue or brand.

A stylish, versatile solution for bars, restaurants, cafés, hotels, chillout zones, showrooms, events, and trade fairs — anywhere atmosphere, comfort, and a unique look matter.

KEY FEATURES

- **Functional and versatile:** use as a table or a pouf
- **Custom branding:** UV print on sides and selected top surfaces
- **Durable natural wood** with a premium look and feel
- **Ideal for bars, restaurants, cafés, hotels and events:** adds character and supports brand visibility

Available types

Dimensions: 46 × 41 × 36 cm
Weight: 5.5 kg

UV printing available on the sides.
Seat print: sublimation.

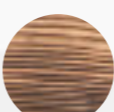

CLASSIC DELUXE

Dimensions: 46 × 41 × 30.8 cm
Weight: 4 kg

UV printing available on the sides and tabletop (plexiglass).

Available finishes

-  Natural raw wood
-  White
-  Teak
-  Heban
-  Burnt wood

Advertising display stands

A modern, clean-looking plywood display stand is an ideal solution for presenting products, promotional materials, or your brand offer. The solid natural-wood construction ensures stability and durability, while UV printing allows full customization — from logos to graphics and promotional slogans.

Precision craftsmanship delivers an elegant look and high-quality detail, making these stands perfect for trade fairs, retail environments, offices, and events. It is a functional and eco-friendly solution that combines the aesthetics of natural materials with modern printing technology, effectively attracting customers' attention and highlighting the character of your brand.

KEY FEATURES & BENEFITS

- Eco-friendly materials: 100% plywood from certified sources
- Solid, reusable construction designed for repeated use
- Premium natural finish with a modern, clean look
- Tool-free assembly for quick setup and easy transport
- Full customization: size, shape, and graphics based on your design
- Sustainable alternative to single-use cardboard stands

APPLICATIONS

- Product displays in stores and showrooms
- Trade fair and exhibition stands
- Promotional and sampling points
- Presentation of marketing materials
- Seasonal or permanent point-of-sale displays
